

# Bachelor of Biomedical Science (Honours) (BBMH) - BBioMedSc(Hons)

CRICOS code (International applicants): 059203B

	<b>On-campus</b>
<b>Semester intake:</b>	Semester 1 (February) Semester 2 (July)
<b>Campus:</b>	Toowoomba
<b>Fees:</b>	Commonwealth supported place Domestic full fee paying place International full fee paying place
<b>Standard duration:</b>	This program must be completed within two years of first enrolling.

## Program focus

The Bachelor of Biomedical Science (Honours) gives students the opportunity to extend their knowledge and skills in a range of research areas within Biomedical Sciences. Students conduct and report on a research project under the supervision of a staff member with the approval of the relevant supervisor.

To qualify for entry to the Bachelor of Biomedical Science (Honours) program students will:

- have been awarded a degree in the area of Honours study, normally, with a substantial amount of undergraduate study in biomedical science
- be current in biomedical science at undergraduate level. To ensure currency of knowledge, students will normally have commenced their undergraduate degree no earlier than eight years previous to the year of application and will have satisfied requirements for the award of that degree no more than three years

**International full fee paying place**

International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, via distance education/online. You are able to calculate the fees for a particular course via the [Course Fee Finder](#).

**Program structure**

The Honours program consists of eight units of study including six units of project courses and two units of coursework. Students enrolled in the Bachelor of Biomedical Science (Honours) must seek advice from the Program Coordinator on:

- selection of an appropriate project
- selection of appropriate special course of study
- detailed procedures for supervision, preparation and submission of progress reports and project material.

The project courses give students appropriate opportunity for research and scientific investigation of a topic within the area of the major study.

**Required time limits**

Students have a maximum of 2 years to complete this program.

**IT requirements**

Students should visit the USQ [minimum computing standards](#) to check that their computers are capable of running the appropriate software and versions of Internet web browsers and to check the minimum and recommended standards for software.

**Exemptions**

No exemptions will be given from any courses in the program. Candidates must complete all courses at USQ.

**Other information**

A mid-year intake is possible. Please contact the Program Coordinator.
