## Program focus

This double degree provides students with the opportunity to expand their knowledge in both business and information technology fields. Students must select a major from business and a major from information technology with considerable flexibility regarding the remainder of the program.

Business majors include:

- Administrativ

## **Career opportunities**

The double degree provides students with a wide range of employment opportunities including administrative manager, personnel officer, supply and materials manager, product/brand manager, events coordinator, IS developer, IT manager.

## **Professional accreditation**

The Bachelor of Information Technology program is accredited at professional level by the [Australian Computer Society](#) and, through the Seoul Accord, is recognised in other countries.

## **Program aims**

The emphases of this program are:

- overview of the business environment (broadly defined to include both private and public 'business') with specific emphasis on management and information technology issues
- vocationally and professionally oriented knowledge, qualities and skills in such areas as problem solving, communication, ethics and teamwork that will enable students to identify, analyse and resolve business management and information technology problems in both the private (profit and non-profit) and public sectors.

## **Program objectives**

This program encompasses the objectives of both the [Bachelor of Business](#) and the [Bachelor of Information T](#)

If you completed Year 12 at a Queensland secondary school you will be assessed for entry on the basis of your Overall Position (OP) or equivalent score. Year 12 students from other states or territories are considered for entry on the basis of their UAI, ENTER or TER and the subject prerequisites indicated. Other applicants will be based on their overall Rank.

Fkqbo

## Core courses

The Bachelor of Business and Bachelor of Information Technology comprises 12 core courses as set out below. Students taking the Applied Computer Science major or Networking and Security major must take [MAT1101 Discrete Mathematics for Computing](#), [CSC2406 Web Technology](#) and [CSC3600 ICT Professional Project](#) as part of their electives.

**Please note:**

When students select a minor(s), courses will only count towards that minor(s) if they have not already counted towards another selected major or minor.

Not all minors are available on-campus at all campuses.

Students may choose courses from those listed in the [Minor Studies](#) section of this Handbook. Enrolment requirements must be satisfied for any course selected.

**Elective courses**
