

Bachelor of Biomedical Science (Honours) (BBMH) - BBioMedSc(Hons)

CRICOS code (International applicants): 059203B

This program is offer

Admission requirements

General Requirements

To qualify for entry to the Bachelor of Biomedical Science (Honours) program students will:

- have been awarded a degree in the area of Honours study, normally, with a substantial amount of undergraduate study in biomedical science
- be current in biomedical science at undergraduate level. To ensure currency of knowledge, students will normally have commenced their undergraduate degree no earlier than eight years previous to the year of application and will have satisfied requirements for the award of that degree no more than three years previously
- have met minimum academic requirements in the relevant undergraduate program. These requirements normally include one or more of the following:
 - achieved a Grade Point Average equivalent to the level of Credit or better for the whole program
 - achieved

Domestic full fee paying students may be eligible to defer their fees through a Government loan called [FEE-HELP](#) provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian Visa holders, Permanent Resident visa holders and New Zealand citizens who will be resident outside Australia for the duration of their program pay full tuition fees and are not eligible for [FEE-Help](#).

International full fee paying place

International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, via distance education/online. You are able to calculate the fees for a particular course via the [Course Fee Finder](#).

Program structure

The Honours program consists of eight units of study including six units of project courses and two units of coursework. Students enrolled in the Bachelor of Biomedical Science (Honours) must seek advice from the Program Coordinator on:

- selection of an appropriate project
- selection of appropriate special course of study
- detailed procedures for supervision, preparation and submission of progress reports and project material.

The project courses give students appropriate opportunity for research and scientific investigation of a topic within the area of the major study.

Required time limits

Students have a maximum of 2 years to complete this program.

IT requirements

Students should visit the USQ [minimum computing standards](#) to check that their computers are capable of running the appropriate software and versions of Internet web browsers and to check the minimum and recommended standards for software.

Exemptions

No exemptions will be given from an
