IT requirements

All students wishing to take advantage of online (Internet-based) systems and services provided by the University should be aware that USQ makes recommendations about the type of hardware and software best suited to match our systems. Compliance with these recommendations will ensure students receive the computing help needed if experiencing problems.

Students studying on-campus or externally should ensure they have access to a computer that meets these [minimum standards](#). Compliance with these recommendations will ensure students receive the computing help needed if experiencing problems.

USQ has a number of hardware and software agreements with suppliers that may result in various benefits being passed onto University staff, students and alumni when they purchase privately.

For some students the financial cost of purchasing computing equipment may be a barrier to studying with USQ. In view of this, the University provides the following assistance:

- Computer laboratories at the Toowoomba, Fraser Coast, and Springfield campuses which are available for student use.
- Scholarships and financial support in the form of financial assistance that may help cover study costs such as computer equipment.

Students may also be interested in tips for computer use, including definitions of computing terms used in these standards.
