## Program aims

The focus of this program is to provide a high-level, vocationally-oriented program that gives students who are already business professionals sufficient theoretical and empirical understanding to enable them to identify and resolve business challenges in both the private and public sectors.

## Program objectives

On successful completion of the Doctor of Business Administration program students will be able to:

- apply relevant theoretical knowledge to contemporary business problems
- critique contemporary organisational practice in the light of relevant theory
- explain the principles of, and apply, a range of quantitative and qualitative research methods frequently used in business research
- determine and apply appropriate research methods to business management problems
- critically evaluate business research studies in order to assess their quality and applicability in improving the effective handling of business management problems
- acquire and utilise knowledge of behavioural, policy and strategic issues to improve the effectiveness of their own organisations
- identify, analyse and evaluate internal and external

- demonstrate superior oral and written communications skills relevant to business
- link the educational experience directly with their own workplace experience.

### **Admission requirements**

Candidates for entry into the Doctor of Business Administration must meet each of the following entry criteria to the satisfaction of the Faculty of Business, Education, Law and Arts:

- (1) a coursework Masters degree or equivalent level from a recognised institution
- (2) five years' full-time equivalent work experience, including at least tw

- those who have already utilised RTS and have successfully completed a research program. Once a student
