Professional accreditation

The Information Systems specialisation in the Graduate Diploma of Business is accredited by the Australian Computer Society and, through the Seoul Accord, is recognised in other countries.

Program aims

The Graduate Diploma of Business gives students the opportunity to enhance their career prospects by obtaining knowledge in a specialist field. Students may choose between the fields of accounting or information systems.

Graduates will have an in-depth understanding of relevant academic disciplines and possess knowledge and skills in problem resolution that will enable them to work effectively in their chosen area of specialisation.

Program objectives

The objectives of the Graduate Diploma of Business are to enable graduates to:

- acquire specific knowledge and skills in accounting or information systems which are relevant to their disciplines
- become better problem-solvers and innovative thinkers, who are able to learn new skills independently and efficiently, and consequently to succeed in a competitive professional environment
- identify information needs appropriate to their area of specialisation, and apply the techniques required to gather and interpret such information

• understand the ethics of their profession and the need for a commitment to that profession.

Admission requirements

Requirements for the Graduate Diploma of Business:

or any updates that ma ing theeyar

Accounting specialisation option 1:

Applicants must have successfully completed an accredited post year 12 qualification equivalent to at least two years' full-time study provided that such qualification is deemed sufficient and appropriate on application.

Accounting specialisation option 2:

Applicants must have completed a minimum of at least five years' relevant work experience.

Applicants with overseas academic qualifications in accounting should contact either of the following professional bodies for an assessment of their qualifications (prior to applying for enrolment in the program):

• CPA Australia

• Chartered Accountants Australia and New Zealand.

Information Systems specialisation:

For admission to the Information Systems specialisation applicants must hold at least a two-year diploma from an Australian or other recognised university, or an approved equivalent qualification, in an area other than computing; and have introductory knowledge of computing consistent with that found in the CIS1000 Information Systems Concepts course.

Domestic and International Applicants from a non-English speaking background are required to satisfy English language requirements.

If you do not meet the English language requirements you may apply to study a University-approved English language program. On successful completion of the English language program, Applicants may be admitted to an Award Program.

Program fees

Domestic full fee paying place

Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are taken. You are able to calculate the fees for a particular course via the Course Fee Finder.

Domestic full fee paying students may be eligible to defer their fees through a Government loan called FEE-HELP provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian Visa holders, Permanent Resident visa holders and New Zealand citizens who will be resident outside Australia for the duration of their program pay full tuition fees and are not eligible for FEE-Help.

International full fee paying place

International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, via distance education/online. You are able to calculate the fees for a particular course via the Course Fee Finder.

Program structure

The program consists of 8 courses each of one unit and students must complete 0 0 1 5i71.96 159.026 omphf one unit and
