Professional accreditation

Master of Professional Accounting component

Graduates of this program will meet the educational entrance requirements of [CPA Australia](#) and [Chartered Accountants Australia and New Zealand](#) (CAANZ). This provides Associate membership of CPA Australia, eligibility to study the CPA Australia professional exams and eligibility to study the CAANZ professional exams.

Successful completion of the Master of Professional Accounting program can qualify students for exemptions from the Fundamental level (9 papers) of the [Association of Chartered Certified Accountants](#) (ACCA) exams.

We recommend that graduates in Accounting from an overseas university obtain a qualifications assessment from CPA Australia before applying for admission. In many cases, such graduates may be required to complete only 3 - 4 courses to achieve Associate membership. These can be studied through a [Graduate Certificate of Business \(ends S3 2014\)](#).

Local recognition (for overseas students): For overseas candidates seeking membership of their home accounting bodies, full members of CPA Australia and/or CAANZ are usually offered reciprocal membership. This is a fast track to become a qualified accountant in one's home country.

Program aims

The Master of Professional Accounting will enable non-accounting university graduates the opportunity to acquire an accounting qualification recognised by the Australian accounting professional bodies.

The Master of Business Administration aims to produce graduates who have been exposed to a range of management skills and who have been trained to use these skills in a manner that will enable them to better handle the managerial demands of modern business practices.
