## **Program objectives**

## **Program structure**

The Associate Degree of Construction is a 16 unit program consisting of Academic courses and Practice courses comprising a core major study component and a minor study. The Associate Degree of Construction

## Minor Studies

The Associate Degree of Construction consists of a core major component and a minor study. The minor study provides students with knowledge and skills in a specific area or specialisation. A minor study in a program is a group of four units of courses that provides students an appropriate breadth of study in an area of specialisation. Students must complete four (4) units from the minors listed below.

The minor studies available are:

- Building
- Civil
- Transdisciplinary

Please refer to the recommended enrolment pattern for details.

## Practical experience

To be eligible to graduate from the Associate Degree of Construction students must obtain an aggregate of at least 30 days of suitable work experience in an architectural, engineering or construction organisation. Students are required to enrol in [ENG290 Work Experience - Associate](#) as the latter part of the program and maintain a record of their practical experience as specified by the Course Specification. The record of work experience must be made available for perusal by the Faculty of Health, Engineering and Sciences upon request. Work experience is to be certified by an appropriate person in the organisation that is providing the workplace experience and to be submitted to the examiner. The student must meet all costs associated with the acquisition of work experience to satisfy this requirement.

Credit or exemptions for [ENG2909 Work Experience - Associate](#) will not normally be considered.

## IT requirements

Students should refer to the [USQ minimum computing standards](#) to check that their computers are capable of running the appropriate software and versions of Internet web browsers and to check the minimum and recommended standards for software. Specialist software is required for some courses.

## Residential schools

Students are required to undertake practical and professional activities relevant to their program through enrolment in a series of **Practice courses** in the program. Practice courses are **zero** unit courses that may be undertaken in either on-campus or external mode and the final grades available are Pass (P)/F

**Exit points**

Students who, for whatever reason, are unable to complete the Associate Degree of Construction, and who satisfy all of the requirements of the [Diploma of Engineering Studies](#) may be permitted to exit with that award.

**Credit**

Exemptions/credit will be assessed based on the [USQ Credit and Exemption Procedure](#).

**Honours**

Honours will not be awarded in this program.

**Other information**

Full-time, on-campus students may, with the permission of the Faculty of Health, Engineering and Sciences, undertake courses by external study.
