Professional accreditation

USQ is registered with the [Project Management Institute](#) (PMI)® as a Global Registered Education Provider (R.E.P.). A study of project management at USQ earns professional development units towards certification with PMI including towards the Project Management Professional (PMP)®.

PMI and PMP are registered marks of the Project Management Institute, Inc.

Program aims

The Master of Project Management and Master of Business Administration encapsulates the aims of each program. The Master of Project Management aims to produce graduates who have appropriate skills and knowledge to be capable of managing small, medium and large-sized projects as either a senior team leader, a project manager or project director. The Master of Business Administration is an advanced academic program for graduates from any discipline who have considerable business experience, and who have a recognised potential for advanced managerial responsibility. This program focuses on those areas of modern management that develop judgement, skills and attitudes that are essential to managerial responsibility.

Program objectives

The Master of Project Management aims to produce graduates who are able to:

- demonstrate underlying knowledge of the theoretical structure of project management as defined by the Project Management Body of Knowledge
- demonstrate essential skills in relation to identification and analysis of logistics management, and integrate logistics management into the overall operation of the organisation
- apply the theoretical principles of project management to a project environment in relation to project:
 - scheduling and time management
 - cost management
 - quality management
 - human resources management
 - communications management
 - risk management
 - procurement management
 - integration management
 - scope management
- apply management skills acquired through elective courses in the context of project management.

The Master of Business Administration will enhance student analytical skills related to management, people, markets, finance, and technical knowledge. Graduates will be able to solve complex organisational problems and be able to manage change through the mastery of particular skills related to creativity, information literacy, and self-reflection. The program focuses on how to demonstrate leadership in global sustainability and how to understand the nature of ethical decisions across contemporary business practice. The Master of Business Administration will enable graduates to work in virtual and non-traditional work environments and increase personal mastery in oral and written communication.

The objectives of the Master of Business Administration are to produce graduates who are able to:

- demonstrate applied knowledge of people, markets, finances, technology and management skills in practice
- identify and solve complex organisational problems, creatively, and practically to increase the effectiveness of management processes
- communicate professionally and effectively in a range of modes to various audiences to achieve targeted outcomes
- demonstrate an understanding of organisations in the global environment and the impact of these on organisational systems
- evaluate, synthesise and critically review theoretical frameworks with other evidence to provide solutions to real-world problems
- demonstrate reflective practice and apply learning to different contexts
- demonstrate an understanding of the impact of interpersonal communication on specific management processes and outcomes using relevant theories and concepts
- comprehend and address complex ethical dilemmas
- demonstrate an understanding of complex sustainable dilemmas and the need for responsible leadership
- demonstrate an understanding of the skills required to work in non-traditional and virtual working environments
- demonstrate the skills required for leadership of other, working in teams and working with people from diverse cultural and professional backgrounds in both virtual and real-time spaces
- communicate professionally and effectively in both oral and written communication to various audiences to achieve targeted outcomes.

Australian Qualifications Framework

The Australian Qualifications Framework (AQF) is a single national, comprehensive system of qualifications offered by higher education institutions (including universities), vocational education and training institutions and secondary schools. Each AQF qualification has a set of descriptors which define the type and complexity of knowledge, skills and application of knowledge and skills that a graduate who has been awarded th9B

This program is at AQF Qualification Level 09. Graduates at this level will have specialised knowledge and skills for research, and/or professional practice and/or further learning.

The full set of levels criteria and qualification type descriptors can be found by visiting www.aqf.edu.au.
