- apply acquired knowledge associated with the studies to work environments
- articulate the principal theories, concepts and applications associated with relevant information technology area(s)
- demonstrate ethical behaviour and act in accordance with the ethics of the profession.

The Master of Project Management aims to produce graduates who are able to:

- demonstrate knowledge of the theoretical structure of project management as defined by the Project Management Body of Knowledge
- demonstrate essential skills in relation to identification and analysis of sustainability management for projects, and integrate sustainability management across the lifecycle of the project
- apply the theoretical principles of project management to a project environment in relation to a range of project types:
  - scope and requirements management
  - scheduling and time management
  - cost management
  - quality management
  - human resources management
  - communications management
  - risk management
  - procurement management
  - integration management
  - stakeholder management

- demonstrate a comprehension of complex ethical dilemmas for various stakeholders within a project management environment.

Australian Qualifications Framework

The Australian Qualifications Framework (AQF) is a single national, comprehensive system of qualifications of

and Master of Project Management. Upon completion and achievement of a minimum GPA of 4.0, they will be eligible for entry into the Master of Information Systems and Master of Project Management.

Candidates with a graduate certificate (AQF level 8) or higher qualification in any discipline, with two years' full-time relevant professional work experience in business may apply for entry into the Master of Information Systems and Master of Project Management. Eligibility for entry will be determined on a case-by-case basis.

All students are required to satisfy the applicable English language requirements.

If students do not meet the English language requirements they may apply to study a University-approved English language program. On successful completion of the English language program, students may be admitted to an award program.

Program fees

Domestic full fee paying place
Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are tak

- A student who successfully completes all requirements for the Graduate Certificate of Business may, upon application, exit with that qualification.
- A student who successfully completes eight units may, upon application, exit with a Graduate Diploma of Business.
- A student who successfully completes 16 courses from the Master of Information Systems, may upon application, exit with that degree.
- A student who successfully completes all 12 courses for the Master of Project Management (ends 2015), may upon application exit with that degree.

Credit

Credit may be granted on the basis of equivalent courses undertaken at postgraduate level. A double degree is required to meet the requirements of each degree studied with a maximum of 50% credit for each program studied individually.

The Master of Information Systems and Master of Project Management meets the requirements of the 16-unit Master of Information Systems and the 12-unit Master of Project Management (ends 2015). The Master of Information Systems and Master of Project Management requires 20 units to be completed with cross-credit of four units from the Master of Information Systems and four elective units from the Master of Project Management (ends 2015). In order for credit to be granted, the claim must meet the following specific requirements:

- the course passed was taken at least at Masters or equivalent level
- the course was passed within five years prior to the application (courses up to 10 years old may be considered if evidence is provided that the applicant has been employed in that field)
- the course passed is equivalent in objectives, content and weightings to a course prescribed in the program, or alternati
