Program aims

The Graduate Diploma of Aviation is a professionally oriented program. The program provides graduates with advanced knowledge of management and business principles, enabling them to critically examine, generate and communicate information relevant to aviation. The program will also provide opportunities to develop critical, evaluative knowledge and skills within the areas of aviation human factors and safety systems.

Program objectives

On successful completion of the Graduate Diploma of Aviation, students will be able to:

- (1) use an advanced, integrated and complex body of knowledge within the aviation industry to (do something)
- (2) solve a range of issues in a professional aviation context with highly developed application of initiative and judgement in planning, problem solving and ethical decision making
- (3) apply advanced aviation knowledge and highly developed skills for professional work and/or further learning
- (4) develop high level written and interpersonal communication skills appropriate to managerial positions within the complex socio-technical aviation system
- (5) engage with a range of professional ethical research skills and/or theoretical research methodologies appropriate to the aviation context
- (6) integrate relevant theory and practice related to a wide range of emergent, technological and human interface challenges within the aviation industry.

Australian Qualifications Framework

The Australian Qualifications Framework (AQF) is a single national, comprehensive system of qualifications offered by higher education institutions (including universities), vocational education and training institutions and secondary schools. Each AQF qualification has a set of descriptors which define the type and complexity of knowledge, skills and application of knowledge and skills that a graduate who has been awarded that qualification has attained, and the typical volume of learning associated with that qualification type.

This program is at AQF Qualification Level 08. Graduates at this level will have advanced knowledge and skills for professional or highly skilled work and/or further learning.

The full set of levels criteria and qualification type descriptors can be found by visiting www.aqf.edu.au.

Admission requirements

To be eligible for admission, applicants must satisfy the following requirements:

- Completion of an Australian university Bachelor degree in the area of aviation, management and/or psychology, or equivalent.
- English Language Proficiency requirements for Category 3.

For candidates who have a Bachelor degree or equivalent (AQF level 7) from a recognised institution outside the areas stated above, USQ's [Graduate Certificate of Aviation](#) provides an articulation pathway into the Graduate Diploma of Aviation.

All students are required to satisfy the applicable [English language requirements](#).

If students do not meet the English language requirements they may apply to study a University-approved [English language program](#). On successful completion of the English language program, students may be admitted to an award program.

Program fees

Domestic full fee paying place

Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are taken. Students are able to calculate the fees for a particular course via the [Course Fee Finder](#).

Domestic full fee paying students may be eligible to defer their fees through a Government loan called [FEE-HELP](#) provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian Visa holders, Permanent Resident visa holders and New Zealand citizens who will be resident outside Australia for the duration of their program pay full tuition fees and are not eligible for [FEE-Help](#).

International full fee paying place

International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, via distance education/online. Students are able to calculate the fees for a particular course via the [Course Fee Finder](#).

Program structure

The Graduate Diploma of Aviation is comprised of eight units of postgraduate courses, comprising five core courses and three specialisation approved courses.

Required time limits

Students have a maximum of four years to complete this program.

Core courses
