

Bachelor of Biomedical Science (Honours) (BBMH) - BBioMedSc(Hons)

CRICOS code (International applicants): 059203B

This program is offered only to continuing students. No new admissions will be accepted after the Semester 2 2013 intake. Students who are interested in this area should consider the [Bachelor of Science \(Honours\)](#)

	On-campus
Start:	No new admissions
Campus:	Toowoomba
Fees:	Commonwealth supported place Domestic full fee paying place International full fee paying place
Standard duration:	This program must be completed within two years of first enrolling.

Program objectives

Upon completion of the Honours program, graduates will be able to:

- demonstrate high levels of proficiency in research and specific methodology including research planning and implementation, analysis, interpretation and evaluation of research results, and the presentation and communication of research findings
- demonstrate awareness of a wide range of research methods and the ethical and social responsibilities of a practising scientist
- apply the skills gained in the program to biomedical science with a high degree of proficiency
- undertake research-oriented careers or progress to higher level studies in biomedical science
- meet the academic requirements for membership of professional societies or registration boards as practising discipline specialists.

Program Information Set

View USQ's admission criteria, student profiles and a summary of all offers made under [Course Admission Information Set](#) via the QTAC website.

Admission requirements

To be eligible for admission, applicants must satisfy the following requirements:

- have been awarded a degree in the area of Honours study, normally, with a substantial amount of undergraduate study in biomedical science
- be current in biomedical science at undergraduate level. To ensure currency of knowledge, students will normally have commenced their undergraduate degree no earlier than eight years previous to the year of

- selection of an appropriate project
- selection of appropriate special course of study
- detailed procedures for supervision, preparation and submission of progress reports and project material.

The project courses give students appropriate opportunity for research and scientific investigation of a topic within the area of the major study.

Required time limits

Students have a maximum of 2 years to complete this program.

IT requirements

Students should visit the USQ [minimum computing standards](#) to check that their computers are capable of running the appropriate software and versions of Internet web browsers and to check the minimum and recommended standards for software.

Credit

No exemptions will be given from any courses in the program. Candidates must complete all courses at USQ.

Other information

A mid-year intake is possible. Please contact the Faculty of Health, Engineering and Sciences.

Recommended Enrolment Pattern

Students are able to enrol in any offered mode of a course (on-campus, external or online), regardless of the program mode of study they enrolled in.

This program is only available in on-campus mode. Students may commence their studies in either semester 1 or semester 2. Students should refer to the Faculty of Health, Engineering and Sciences for the current year's Honours Guidelines.
