### Professional accreditation

USQ is a global Registered Education Provider (R.E.P.) accredited by the US-based Project Management Institute (PMI)®, which is the largest professional body for project managers in the world with over 450,000 members. USQ's status as an R.E.P. ensures the currency, quality and global recognition of the project management programs and courses offered by USQ both on-campus and online. Completion of project management courses and programs at USQ earns professional development units (PDUs) as evidence of professional development and credit towards PMI's Continuing Certification Requirements (CCR) program. Details can be obtained at the [Project Management Institute](#)

PMI, PMP and Project Management Professional (PMP) are registered marks of the Project Management Institute, Inc.

### Program aims

The Master of Project Management and Master of Business Administration double degree encapsulates the aims of each program. The Master of Project Management aims to produce graduates who have appropriate skills and knowledge to be capable of managing small, medium and large-sized projects as either a senior team leader, a project manager or project director. The Master of Business Administration is an advanced academic program for graduates from any discipline who have considerable business experience, and who

have a recognised potential for advanced managerial responsibility. This program focuses on those areas of modern management that develop judgement, skills and attitudes that are essential to managerial responsibility.

## Program objectives

The Master of Project Management aims to produce graduates who are able to:

The Master of Project Management aims to produce graduates who are able to:

- demonstrate mastery of theoretical knowledge and to reflect critically on theory, professional practice and scholarship in project management
- investigate, analyse, synthesise and apply complex information, problems, concepts and theories to a project management body of knowledge or practice
- demonstrate technical, communication and research skills to interpret and justify theoretical propositions, methodologies, conclusions and professional decisions to specialist and non-specialist audiences
- demonstrate the application of knowledge and skills with creativity and initiative to new situations in professional practice and/or for further learning, with high level personal autonomy and accountability
- plan and execute a substantial research-based project, capstone experience and/or piece of scholarship.

The Master of Business Administration will enhance student analytical skills related to management, people, markets, finance, and technical knowledge. Graduates will be able to solve complex organisational problems and be able to manage change through the mastery of particular skills related to creativity, information literacy, and self-reflection. The program focuses on how to demonstrate leadership in global sustainability and how to understand the nature of ethical decisions across contemporary business practice. The Master of Business Administration will enable graduates to work in virtual and non-traditional work environments and increase personal mastery in oral and written communication.
