

## Master of Computing (MCOP) - MComp

This program is offered only to continuing students. No new admissions will be accepted. Students who are interested in this study area should [contact us](#).

	On-campus <sup>^</sup>	Online <sup>^</sup>
<b>Start:</b>	No new admissions	No new admissions
<b>Campus:</b>	Toowoomba	-
<b>Fees:</b>	Commonwealth supported place Domestic full fee paying place International full fee paying place	Commonwealth supported place Domestic full fee paying place International full fee paying place
<b>Standard duration:</b>	1.5 years full-time, 3 years part-time, 4.5 years maximum	
<b>Program articulation:</b>	From: <a href="#">Graduate Diploma of Information Technology</a>	

**Notes:**

Please consult the Faculty of Health, Engineering and Sciences for more information about articulation from the ; [Graduate Diploma of Information Technology](#)

Completion of either the Graduate Diploma of Information Technology, the Graduate Diploma of Professional Computing or the Graduate Diploma of Advanced Computing through UniSQ, or equivalent.

- English Language Proficiency requirements for Category 3.

All students are required to satisfy the applicable [English language requirements](#).

If students do not meet the English language requirements they may apply to study a University-approved [English language program](#). On successful completion of the English language program, students may be admitted to an award program.

## **Program fees**

### **Commonwealth supported place**

A Commonwealth supported place is where the Australian Government makes a contribution towards the cost of a student's higher education and students pay a [student contribution amount](#), which varies depending on the courses undertaken. Students are able to calculate the fees for a particular course via the [Course Fee Schedules](#).

Commonwealth Supported students may be eligible to defer their fees through a Government loan called [HECS-HELP](#).

### **Domestic full fee paying place**

Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are taken. Students are able to calculate the fees for a particular course via the [Course Fee Schedule](#)

Domestic full fee paying students may be eligible to defer their fees through a Government loan called [FEE-HELP](#) provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian V

approval by the Faculty of Health, Engineering and Sciences, students may include up to three units of other study at the appropriate level.

Students seeking Skill Accreditation, or other accreditations from professional bodies such as the Australian Computer Society, should seek advice from the professional bodies before they apply for credits or exemptions.

Coursework	
Group 1 Courses	
Semester 1	Semester 2
CSC8407	CSC8421
<a href="#">CSC8410 Independent Studies in Computing/Mathematics/Statistics A</a>	CSC8426 #
CSC8416 +	<a href="#">CSC8411 Independent Studies in Computing/Mathematics/Statistics B</a>
CSC8422 Web Data Visualisation	CSC8415 Computer Network Programming
CSC8419	CSC8420 Mobile Systems
<a href="#">CSC8480 Computing Complementary Studies A</a>	CSC8490
Group 2 Courses	
Semester 1	Semester 2
CSC8500 Advanced Relational Database Design and Technology	CSC8513 Network Performance Analysis
CSC8503 Principles of Programming Languages	CSC8527 Scaling and Connecting Networks
CSC8512 Advanced System Administration	
CSC8507 Networking Technologies	

#### Footnotes

# This course replaces CSC8409 which has been discontinued.

+ CSC8416 Advanced Programming in Java will not be offered in S1 2021, replacement course options are: CSC8407, [CSC8410](#), [CSC8480](#), [CSC8101](#), CSC8004, [CIS8708](#), [CIS8500](#).

## Research

In addition to the coursework, each student is required to complete a four-unit research project. To satisfy this requirement, students will complete both of the two-unit courses, MSC8001 and MSC8002. Subject to approval by the Postgraduate Coordinator, these courses may be taken in Semester 1 or 2.

## IT requirements

All students are required to have access to the Internet and to a personal computer running Microsoft Windows and Linux. The School provides assistance with installing Linux for students who may not have done so before.

Students should visit the UniSQ [minimum computing standards](#) to check that their computers are capable of running the appropriate software and versions of Internet web browsers and to check the minimum and recommended standards for software.

Compliance with these recommendations will ensure students receive the computing help needed if experiencing problems.

Macintosh computers are acceptable but not recommended due to the software used in the courses.

Software is specified on a course-by-course basis and, in some instances, it is provided with the textbook required for the course.

The University has installed a wireless network for students' computers. In order to take advantage of this facility and further enhance their on-campus learning environment, students should consider purchasing a notebook/laptop computer with wireless connectivity. A notebook/laptop may be required for some courses.

Consult the Handbook on the Web at <https://www.unisq.edu.au/handbook/current> for any updates that may occur during the year.  
(DISCONTINUED) Master of Computing (MCOP) - MComp (2023)
