

## Master of Engineering (MENC) - MEng

This program is only offered to continuing students. No new admissions will be accepted. Students who are interested in this study area should consider the [Master of Advanced Engineering](#) which will be offered from S1 2014.

	External
<b>Start:</b>	No new admissions
<b>Campus:</b>	Toowoomba
<b>Fees:</b>	Domestic full fee paying place International full fee paying place
<b>Standard duration:</b>	1.5 - 2 years by distance education
<b>Program articulation:</b>	From: <a href="#">Postgraduate Certificate of Engineering</a> ; <a href="#">Bachelor of Engineering (Honours)</a>

### Notes:

Some of the courses in the Engineering Management and Engineering Project Management majors may be offered on-campus at the Springfield Campus

Formerly Master of Engineering Management (MENM)

## Professional accreditation

The [Master of Engineering](#) is not accredited by any professional bodies other than the University of Southern Queensland.

## Program aims

The aim of the Master of Engineering program is to produce graduates that are equipped with essential management knowledge and an appreciation of the latest technologies in addition to their initial specialisation. The skill set would therefore allow the graduate to manage more complex technological or engineering businesses.

## Program objectives

Students who successfully complete the Master of Engineering will be able to demonstrate their ability to:

- Critically evaluate knowledge from literature and other information sources relevant to their field
- Apply asset management theory and practice to the management of engineering assets
- Evaluate the importance of technological innovation and risk in engineering businesses
- Apply the specialist knowledge and skills acquired in their major

## Admission requirements

To be eligible for admission, applicants must satisfy the following requirements:

Possess a four year Bachelor of Engineering degree awarded by an Australian university, or an equivalent qualification awarded by an overseas institution. Candidates who wish to study a technical major will be expected to have completed an appropriate major in their undergraduate program.

The standing of degrees awarded by an overseas institution will be determined by reference to the National Office of Overseas Skills Recognition (NOOSR).

All students are required to satisfy the applicable [English language requirements](#).

If students do not meet the English language requirements they may apply to study a University-approved [English language program](#). On successful completion of the English language program, students may be admitted to an award program.

## **Program fees**

### **Domestic full fee paying place**

Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are taken. Students are able to calculate the fees for a particular course via the [Course Fee Schedule](#)

Domestic full fee paying students may be eligible to defer their fees through a Government loan called [FEE-HELP](#) provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian Visa holders, Permanent Resident visa holders and New Zealand citizens who will be resident outside Australia for the duration of their program pay full tuition fees and are not eligible for [FEE-Help](#).

### **International full fee paying place**

International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, external or online. Students are able to calculate the fees for a particular course via the [Course Fee Schedules](#).

## **Program structure**

The Master of Engineering comprises eight single unit

should consider purchasing a notebook/laptop computer with wireless connectivity. A notebook/laptop may be required for some courses.

### **Articulation**

Students who have completed the Postgraduate Certificate of Engineering are able to apply to articulate with full credit into the Master of Engineering program if they study the same major in this program and satisfy admission requirements to the Master of Engineering program.

The standing of degrees awarded by an overseas institution will be determined by reference to the National Office of Overseas Skills Recognition (NOOSR).

### **Credit**

Exemptions/credit will be assessed based on the [UniSQ Credit and Exemption Procedure](#).

### **Advanced Structural Engineering Design Major recommended enrolment pattern**
