Professional accreditation

The Master of Information Systems program is accredited at professional level by the [Australian Computer Society](#) (ACS) and, through the Seoul Accord is recognised in other countries. The Seoul Accord is a [multi-lateral agreement](#) that allows ACS accreditation to be recognised globally. This means that graduates from this program will have their degree recognised by other countries who are members of the Accord.

Program aims

The Master of Information Systems is a professionally-oriented program that provides university graduates with the opportunity to acquire an information systems qualification. The program comprises 16 courses.

Program objectives

The Master of Information Systems aims to produce graduates who are able to:

- (1) Identify and analyse legal, security and privacy issues typically encountered in working as an IT professional.
- (2) Apply sound judgment in responding to important ethical, legal, security and privacy issues that would be encountered in working as an IT professional.
- (3) Plan and evaluate strategies to enhance the chances of leading successful entrepreneurial endeavours and

- (4) Critically analyse then synthesise complex scenarios to solve real-world problems related to the use and application of information technology.
- (5) Evaluate appropriate research methodologies to help identify, collect, analyse and manage a range of information technology issues.
- (6) Communicate professionally and effectively in written and verbal communication to relevant stakeholders.
- (7) Critically analyse ethical issues in a range of situations
