## Program aims

This coursework Masters program aims to provide environmental and resource managers and other professionals with appropriate formal instruction to enhance their skills and knowledge in the emerging discipline of sustainability science.

## Pr

## Admission requirements

To be eligible for admission, applicants must satisfy the following requirements:

Applicants must hold a three-year Bachelor's degree from an Australian University or equivalent.

A formal process of Accreditation of Prior Learning (APL) will be used to assess applicants without Bachelor degrees, who wish to gain entry to the program on the basis of equivalent experience or qualifications. Applicants should contact the Faculty of Health, Engineering and Sciences if they wish to be assessed for admission on this basis.

All students are required to satisfy the applicable [English language requirements](#).

If students do not meet the English language requirements they may apply to study a University-approved [English language program](#). On successful completion of the English language program, students may be admitted to an award program.

## Program fees

### Domestic full fee paying place

Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are taken. Students are able to calculate the fees for a particular course via the [Course Fee Schedule](#)

Domestic full fee paying students may be eligible to defer their fees through a Government loan called [FEE-HELP](#) provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian Visa holders, Permanent Resident visa holders and New Zealand citizens who will be resident outside Australia for the duration of their program pay full tuition fees and are not eligible for [FEE-Help](#).

### International full fee paying place

International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, external or online. Students are able to calculate the fees for a particular course via the [Course Fee Schedules](#).

## Program structure

The program contains five compulsory courses of one unit each and three elective courses. At least four units of courses in the program must be level 8. With the approval of the Faculty of Health, Engineering and Sciences, students may apply to vary their program on the basis of prior study.

## Program completion requirements

To qualify for the award of Master of Sustainability Science, a candidate must complete eight courses as indicated within four years of first admission to the program.

Candidates who have completed the same or similar courses at UniSQ or similar courses at another institution may, with the approval of the Faculty of Health, Engineering and Sciences, apply to vary their program on the basis of prior study.

<b>Core Courses</b> - students must complete the following five courses:	
<a href="#">REN8101 Environment, Society and Sustainability</a>	Semester 1
ECO8012	Semester 2
POL3013 Sustainability and Politics	Semester 1
<a href="#">REN8202 Conservation for Sustainable Futures</a>	Semester 2
<a href="#">CLI8204 Global Environmental Systems</a>	Semester 1
<b>Elective Courses</b> - students must complete three units of elective courses chosen from the following:	

REN3301 Biodiversity and Conservation	Semester 2
REN3302 Sustainable Resource Use	Semester 2
GIS1402 Geographic Information Systems	Semester 2
GIS2405 Spatial Analysis and Modelling	Semester 2
LAW1101	Semesters 1, 2 and 3
LAW2107 Environmental Law	Semester 1
FIN5003	Semesters 1 and 3
MGT8021 Project Sustainability Management	Semester 1
MGT8033 Leading Organisational Change	Semester 1
POL2000	Semester 1
PRL2001	Semester 2
PRL2002 Community Consultation and Engagement	Semester 1
AGR3304 Soil Science	Semester 1
or other course(s) subject to approval by Faculty of Health, Engineering and Sciences	

### Required time limits

Students have a maximum of 4 years to complete this program.

### IT requirements

For information technology requirements please refer to the [minimum computing standards](#).
